

Office of Sponsored Programs 2022–23 Annual Report

2022-23 YEAR AT A GLANCE

The Office of Sponsored Programs (OSP) at the University of San Diego provides quality service and support to the USD community. Our team partners with faculty members, administrators and graduate students, assisting them from initial proposal development and budget preparation, to the submission of innovative, high quality, competitive proposals. After an award, OSP collaborates with internal and external partners to support the non-financial administration of the award, culminating in the project closeout. We are committed to advancing academic excellence by facilitating and sustaining a growing research enterprise.

RESEARCH EXPERTISE DATABASE

At the April 4 Research and Scholarship Recognition Reception, the provost's office and the Office of Sponsored Programs announced the development of the Research Expertise Database to promote research collaboration across the USD campus and with external organizations. Within the database, which is set to roll out in Fall of 2023, internal or external researchers can search by keywords or specific areas of expertise to identify and collaborate with members of the USD community on research and other types of externally-funded projects.
