The formation of the joint committee on General Education Requirements awaits the action of the curriculum committees of the colleges.

PHYSICS DEPARTMENT

Ryan Aeronautical Co. has donated 121 of electronics equipment to the physics department. This equipment is particularly valuable to the department because it consists of many items that it would not have been feasible to purchase new. Those items that are not of use to the physics department are being offered to the other science departments and local Catholic high schools. The negotiations for the equipment were carried out by Mr. Warren.
