### OFFICE OF THE PRESIDENT

#### Condolences:

The University of San Diego community extends its sympathy and prayers to Sister Marina Mapa on the death of her father.

#### Budget Recommendations to Trustees:

I wish to apprise members of the University community, as fully as I can, of our current situation relative to budget recommendations for 1979-1980. In the News-notes of October 11, 1978, under the title "Open Budget Hearing," it was noted that, following the hearing, the budget proposals would go to the University Cabinet, to be forwarded subsequently by the President and Vice President for Financial Affairs to the Finance Committee of the Board and the full Board of Trustees. Those of you who attended the Open Budget Hearing will remember that the budget included Plan A and Plan B, the basic difference between them being a larger undergraduate enrollment. As in past years, we will not know until spring semester enrollment is in, and revised enrollment projections based on spring enrollment are made, whether we will be at Plan A, Plan B, or somewhere in between.

In the 18 hours between the Open Hearing and the meeting of the University Cabinet, President Carter went on nationwide television to announce his wage and price guidelines. Plan A salary increments were already proposed by the Budget Committee at 7% average, with Plan B at 9% average. The 9% average became Plan B-1, and Plan B-2 was necessarily developed by the Cabinet, shifting funds to fringe benefits and other people-oriented priorities, in order to comply with the proposed 7% guideline. We did not know at the time that the 7% probably included fringe benefits as well, though just what fringe benefits must be counted is still not clear. It was decided by the Cabinet that all three plans should go to the Trustees, since no one is sure just now of the implications of President Carter's guidelines, of how effective they will be, of what their status will be in the end of February, when we must prepare final budget recommendations to the Board of Trustees.

This situation was explained to the Trustees, who approved the priorities in the proposed budget, subject to compliance with President Carter's guidelines. They also approved the proposed new personnel, the chief reason the priorities must go to the Trustees in November, so that recruiting may begin.

The above explains the uncertain situation in which we find ourselves. Final decisions cannot be made on budget priorities, nor on proposed sabbatical leaves, until there is greater clarity on the guidelines. If we are limited to a 7% average, including fringe benefits, then all other priorities will have to be reviewed by the Budget Committee, including the proposed 1979-1980 tuition increments.

HEGIS Report:

Official HEGIS (Higher Education General Information Survey) enrollment statistics have been sent to Washington, D.C. A copy of the enrollment chart sent to HEGIS is appended to these Newsnotes, for your information. Also appended is a copy of the same chart sent to HEGIS last year, enabling you to make comparisons. If you wish also to compare year before last, that chart is page 7 of the Newsnotes of October 21, 1977.

Analysis of Student/Faculty Statistics:

I am attaching at the back of these Newsnotes, for your information, two pages summarizing and interrelating for the current semester (Fall, 1979) courses offered, class enrollments, average students per course, student units generated, FTE faculty, student/faculty ratio, etc. As many of you know, we have published comparable information each fall semester since 1972 (Newsnotes, of December 15, 1972, November 2, 1973, November 8, 1974, November 14, 1975, November 17, 1976, and November 9, 1977) as well as spring semester data for several years (Newsnotes of May 24, 1974, May 30, 1975, April 23, 1976, April 14, 1977, and May 15, 1978).

The student/faculty statistics need some explanation, and I ask you to read the data in the light of the annotations which follow:

1. Figures are comparable to those of prior years, since the same basis was used for figuring out the statistics. There was one exception. In the School of Education, all units taken by graduate students (and paid for as such) have been listed in the graduate column, even if taken in an undergraduate numbered courses open to graduate students; prior to Fall, 1975, units were listed in the column appropriate to the course number.
2. The official student/faculty ratio figure is Column N - or Column M if one does not include sabbaticals. Both Columns M and N include administrative time (such as department chairmanships) and any special project time as well as instructional time. However, Column L - which gives an instructional student/faculty ratio - is included also, since the comparison between Column L and Columns M and N indicates the effect of faculty administrative time on the student/faculty ratio.
3. The administrative time of the Deans of the five schools/college is NOT included anywhere in the chart; their instructional time is included, in that the student units are counted, but the FTE faculty is not increased by virtue of the fact that a Dean is teaching a course.
4. Where a faculty member is teaching in the External Degree program as part of his or her regular semester's faculty load, the proportion of teaching time is the External Degree program has been removed from the department and discipline column and added to the External Degree line.
5. The various national, regional, and professional groups to which the University belongs (such as the American Bar Association) often specify particular formulae for computing student/faculty ratio. Computations according to these formulae cannot be ignored, especially in the case of an accrediting body. But computations according to these formulae sometimes differ from the computations on the attached sheets, which are based on the number of student units and full-time equivalent faculty. As soon as we are aware of differing student/faculty ratios computed according to formulae of various associations, we will communicate them in these Newsnotes.

6. We are using a formula that was new in the fall of 1976, for determining the number of classes, and hence the average students per class, for laboratory courses. This formula counts each lab section of a course with several labs as a class section, but does not count the lecture as a class. Courses with lecture and single associated lab are counted as one class. This change only affects figures in Columns A and C for those departments offering lab courses, and results in some incomparability with earlier years.
7. The chart reflects Fall Semester figures. We will also publish computations for Spring Semester.

Note: One key element in student/faculty statistics is not reflected on a chart such as this, namely, the advising load. A discipline may have a fairly high student/faculty ratio, but a small number of majors for its faculty members to advise. Another discipline may have the same or smaller student/faculty ratios, along with a hundred or more majors to advise.

#### UNIVERSITY RELATIONS

Attached is a corrected version of the Comparative Gift Report which appeared in the October 27, 1978 Newsnotes.

#### COMING EVENTS

Five and ten mile cross country road run, December 2, 9 a.m., USD Sports Center. Proceeds to the USD Athletic Program. \$5 fee; \$7 day of race. Stereo equipment and other prizes to the winners! For information call 291-6480, extension 4272.

University of San Diego constitutional law professor Charles Wiggins was a guest on KSDO radio talk show at 2:15 p.m., Friday, November 10. Wiggins discussed the constitutionality of the extension of the time limit for ratification of the equal rights amendment. A constitutional law scholar, Wiggins received his J.D. from Hastings in 1969. He received his LL.M. from Yale in 1974.

Dr. Patricia Lowry, Associate Professor of Education, School of Education, was the keynote speaker on Evaluation and Supervision of Educational Systems at the Administrators Conference October 11 - 13 sponsored by the Diocesan Offices of San Diego, Orange, and San Bernardino. The conference was coordinated by Sister Ann Patricia O'Connor, Sister Theodore Blake, Sister Rose Schmidt, and Sister Gertrude Ann Sullivan of the San Diego Diocese. The conference was held at the Motherhouse of the Sisters of St. Joseph in Orange, California.

Dr. Donald Helmich, School of Business Administration, has received acceptance of an empirical piece entitled "Board Size Variation and Rates of Succession in the Corporate Presidency." The paper is to be published by the Journal of Business Research late in 1979. Acknowledgment is given within the text to research support received from a 1977-1978 academic year grant from the School of Business.

Dr. Helmich has been invited to review competitive research papers in the field of organization theory for presentation at the Academy's national meeting to be held in Atlanta, Georgia, in August, 1979.

\*\*\*\*\*

Dr. Ray Brandes, Dean, School of Graduate and Continuing Education, gave a talk entitled "Missions and Missionaries of Baja California" on Tuesday, October 24, 1978 to St. Mary's Parish in Escondido.

\*\*\*\*\*

Dr. Ernest Morin, Professor of Political Science, participated in a workshop on U.S. Foreign Policy in Africa held in San Francisco on October 31, 1978. The workshop was organized by the U.S. Department of State.

\*\*\*\*\*

On October 23, 1978, Professor Therese Whitcomb, Art Area Coordinator, participated in a seminar of twenty people who will chart the direction of the San Diego Museum of Art. The group will meet again in a weekend session in Borrego in January to complete its task.

Professor Whitcomb was also recently elected to the Board of Directors of the Francis W. Parker School.

Dr. Ross E. Dingman, Professor, Department of Biology, organized the Fifth Annual Meeting of the Southern California Mammalogists which was held on October 21, 1978, at the Otto Center, San Diego Zoo.

\*\*\*\*\*

Dr. Dessie K. Severson, Associate Professor, Department of Biology, attended an NSF Chautauqua short course on the "Reproductive Biology of the Flowering Plants" at Stanford University on October 23 and 24.

\*\*\*\*\*

Dr. Louis E. Burnett, Assistant Professor, Department of Biology, has returned to USD after completing a seven-month postdoctoral fellowship at the Department of Zoophysiology, University of Aarhus, Denmark. During his stay he studied two different problems. One dealt with looking at the respiratory consequences of various breathing rhythms in the crab, Cancer pagurus. The other set of experiments

studied how the shore crab, Carcinus maenas, controls acid-base levels in the blood when it is exposed to the low oxygen levels it commonly encounters in nature. He determined that the rate of water flow over the gills is not responsible for increased blood alkalinity.

Sister Genevieve Lane, Dr. Robert E. Nelson and Dr. DeForest L. Strunk of the Special Education Division of the School of Education attended the California State Federation of Exceptional Children Convention in Sacramento November 2 - 4. Eight students from the University also were in attendance at this meeting with the faculty. Dr. Strunk spoke at the Student Council for Exceptional Children meeting on "Special Education Travel Considerations and Opportunities for University Students."

## USD ANNOUNCES APPOINTMENT OF FOUR NEW TRUSTEES

Four prominent Californians have been appointed to serve as Trustees of the University of San Diego. They are: Mrs. Joan Kroc, Kim Fletcher, Douglas Manchester and Sr. Rita Maginn.

The newly-appointed trustees will join thirty other trustees at a weekend workshop in Palm Springs on November 3 and 4.

La Jollan Joan Kroc is founder of Operation Cork, an alcohol education foundation. She is a member of the National Center for Health Education and the Northwestern Memorial Hospital. Long involved in the health field, Mrs. Kroc is the wife of Padres baseball team owner Ray Kroc. She has one daughter.

San Diegan Kim Fletcher is the President and Managing Officer of Home Federal Savings and Loan Association of San Diego, currently the seventh largest savings and loan association in the nation. A graduate of Stanford University, he is a director of the Federal Home Loan Bank of San Francisco, and is the immediate past chairman of the Advisory Council to the Federal Home Loan Bank Board in Washington. Active in a host of civic and charitable organizations, Fletcher is a founding director of the San Diego Economic Development Corporation, sits on the Board of Directors of the Donald N. Sharp Memorial Hospital, and has served as chairman of the San Diego County 1977 United Way/CHAD campaign. Fletcher is married and the father of six children.

Businessman Douglas Manchester is the President of Torrey Enterprises, which owns and invests in many San Diego businesses, including the La Jolla Bank and Trust Building, Boom Trenchard's Flare Path and Botsford's Old Place Restaurants. A La Jollan, Manchester's activities include many civil and social groups, such as the Young President's Organization, La Jolla Town Council, the San Diego Yacht Club, Big Brothers, and All Hallows Parish. Manchester is married and the father of three children.
