CIC DIRECTOR TO LECTURE AT USD

SAN DIEGO, Calif.—The urban situation will be brought into focus in the lecture series, "Cities in Crisis," offered by the University of San Diego. The first lecture is Feb.19.

Carrol W. Haymon, executive director, Citizens' Interracial Committee, will present the series of six lectures. The class will meet Wednesdays at 7:30 p.m. in the USD College for Women Rose Room.

The course, the first of its kind at the University of San Diego, can be taken for credit or as a non-credit course.

Waymon, head of the city of San Diego's official human relations agency, explains that "The crisis in our cities is the acceptance or rejection of the black minorities, and the inclusion of them as full, participating citizens." However, he added, the course will cover the broad range of urban problems.

Waymon is a 1950 graduate of Howard University. He has a B.S. in psychology and a master's degree in psychology from there. He earned a master's degree in education in 1957 from Temple University.

A spokesman for the university noted that the course is a manifestation that USD has an interest in and commitment to community problems. "Haymon's course should give students, faculty and members of the community deep insights into the problems of our urban culture," he added.

Topics to be covered are The Urban Crisis: Definitions; Funds: People and Prices; Law, Order and Justice: An Ideal; The Minority Mystique and History; Government Role in the Urban Crisis, and Cities in 1989: Role of Citizens in a Changing Democracy.

Editor's Note: The lectures may be a good source of feature material.
