### OFFICE OF THE PROVOST

#### Enrollment for the 1985-1986 Academic Year:

Attached to these Newsnotes are the final enrollment charts for the regular academic year 1985-1986, with both Full-Time Equivalent (FTE) and headcount enrollments included for all segments of the University.

An analysis of the attached charts will reveal to you a number of factors:

- Undergraduate enrollment is somewhat below budget for fall, above budget for spring, and therefore almost exactly on target for the year (short by half a student FTE!); we therefore made up the potential budget shortfall feared in September because the net attrition rate (minus graduating, disqualified, or dropout students, plus new students) was only 6.5% instead of the budgeted 7%;
- Though the graduate student FTE dropped slightly between fall and spring, the annual average remains 3% above budget (column 9: 421.5 FTE above the budgeted 409 FTE);
- School of Law annual average enrollment is under budget by 23.5 day students and over budget by 28.5 evening students; on-campus LL.M./M.C.L. enrollment is considerably below budget in full-time students, as is the LL.M. in Los Angeles in full-timers; in San Diego, the part-time units in these programs missed budget by only 61 units, while Los Angeles figures are considerably under budget, but not final, since these Los Angeles numbers include summer, 1986.

When the FTE results noted above for the two semesters of 1985-1986 are turned into dollars, with over-budget numbers providing some offset to under-budget numbers, the "bottom line" comes to a tuition deficit of approximately \$155,000 for the two semesters, a situation very different from a year ago, when there was a surplus of tuition funds over budget.

### WASC Accreditation:

The regional accrediting agency which accredits the University of San Diego has a 10-year pattern for established institutions, with a 5-year Report and visit by a small team half way through the 10-year cycle. The Western Association of Schools and Colleges (WASC) has notified USD that the Fifth-Year Report is due in late Spring of 1987. Sister Maureen Cronin, Associate Provost and USD's WASC liaison officer, will handle the development of the report and the preparations for the visit.

The following have been asked to serve on the Steering Committee which will oversee the preparation of the Fifth-Year Report:

Sister Maureen Cronin, Associate Provost, Committee Chair  
 Dr. Michael Haney, Chair, Department of Psychology  
 Dr. Gary Whitney, School of Business (Spring, 1986)  
 Dr. Mario Picconi, School of Business (Fall, 1986; Spring, 1987)

### COLLEGE OF ARTS AND SCIENCES

During the Intersession period, the College of Arts and Sciences was the recipient of several significant grants/gifts.

The Biology and the Chemistry faculty, working with Associate Dean Carol Baker, prepared a proposal that resulted in a grant of \$50,000 from the Atlantic Richfield Foundation. The grant is for the purchase of scientific equipment. The award was especially significant in two ways: it was our initial approach to ARCO for this type of support and unusual for them to fund a first submission; and we were awarded \$50,000 even though only \$46,000 was requested.

The Music faculty received a gift of \$25,000 from a private donor for the completion of the pipe organ in Founders Chapel. Father Nicolas Reveles was instrumental in securing the funds that will make a major difference in the development of our new Liturgical Music program.

The Philosophy Department has received two grants, a \$10,000 award from the Exxon Foundation and a \$2,000 award from the Matchette Foundation. The funds were used to support the Conference on the Virtues organized by the

Philosophy faculty and held on February 13-15 in the Manchester Executive Conference Center. This was the first in an annual series of national conferences on human values topics hosted by the Department.

On January 23, four faculty from the College of Arts and Sciences presented a program on "Our Medieval Roots" to members of the various USD Invisible University groups that normally meet off campus. This program, held in the Manchester Executive Conference Center, featured Sister Betsy Walsh, English, as keynoter; Dr. James Otte, History, speaking on medieval art and architecture: "Of Saints, Monks, Knights, Ladies, and Stones"; Dr. Gary Macy, Religious Studies, on theology: "Reformation of the Middle Ages"; and Father Nicolas Reveles, Music, on the "Secular Music of the Middle Ages." The program was received enthusiastically by the audience of some 200.

On January 8-11, Dr. Joseph Pusateri and Dr. Carol Baker attended the annual joint meeting of the Association of American Colleges and the American Conference of Academic Deans, held this year in New Orleans. Dr. Pusateri is a member of the Board of Directors of ACAD and participated in its executive committee meetings there.

THE UNIVERSITY OF SAN DIEGO  
PRESENTS  
NUCLEAR WAR: A MODERN DILEMMA

A Series of Free, Public Issue Forums

Forum 1: WHEN IT COMES TO NUCLEAR WAR CAN WE BE MORAL AND  
SURVIVE?

Time: 7:00 - 8:30 p.m.

Place: Manchester Executive Conference Center, Room 206A

Date: March 5, 1986

The pastoral letter of the American Bishops, The Challenge of Peace, has caused a great deal of heated discussion across the United States. In this session, we will introduce the basic stand contained in the pastoral and address the controversial issues the pastoral raises. Is nuclear war a religious issue? If we do have to fight, when and how do we fight? What does the pastoral really say? What about the Russians?

Forum Leader: Gary Macy, Ph.D.  
Associate Professor of Religious Studies  
University of San Diego

Forum 2: IS IT POSSIBLE TO HAVE A JUST WAR?

Time: 7:00 - 8:30 p.m.

Place: Manchester Executive Conference Center, Room 206A

Date: March 12, 1986

National security once relied on the restrained use of power. Today security systems are difficult to restrain and quite vulnerable to attack. The dilemma of nuclear deterrence as well as that of nuclear war and tyranny are not easily resolved. Questions and discussion will focus on nuclear deterrence as a national defense policy. Under what conditions would the United States employ combat forces abroad? Should technological investigation be aimed at developing defensive systems such as SDI?

Forum Leader: Major Walter A. Shartmann, U.S.M.C.

Forum 3: CAN WE AFFORD ECONOMICALLY TO END THE ARMS RACE?

Time: 7:00 - 8:30 p.m.

Place: Manchester Executive Conference Center, Room 206A

Date: March 19, 1986

Important, politically powerful segments of our economy are tied to the Arms Race. Arms manufacture is a profitable business. Ending the arms race or even putting a freeze on nuclear weapon production threatens jobs and profits. Is it economically and politically feasible to convert these economic resources into other activities? Are the benefits of ending the arms race greater than the costs? With two thirds of the world inadequately fed, can the U.S. afford to continue spending \$35 million an hour on arms?

Forum Leader: Joan Anderson, Ph.D.  
Associate Professor of Economics  
University of San Diego

Forum 4: CAN WE ACHIEVE PEACE THROUGH ARMS CONTROL NEGOTIATIONS?

Time: 7:00 - 8:30 p.m.

Place: Manchester Executive Conference Center, Room 206A

Date: April 2, 1986

We now have enough nuclear weapons to destroy the world 67 times over. This presentation will examine how much is enough, the history of arms control and the art of negotiation. What is necessary for nuclear deterrence? Is there an alternative to nuclear weapons systems? Has the history of arms control taught us anything? What is the process of negotiation? What are the practical military, political and legal aspects of arms control negotiation? Can we trust the Russians to comply with an arms control treaty and can we verify that compliance? What is the function and purpose of the Standing Consultative Committee?

Forum Leader: Buzz Featherman, Esq.  
Adjunct Professor  
California Western Law School

Forum 5: IS NUCLEAR WAR INEVITABLE OR IS THERE HOPE FOR THE FUTURE?

Time: 7:00 - 8:30 p.m.

Place: Manchester Executive Conference Center, Room 206A

Date: April 9, 1986

With rapid proliferation of nuclear weapons, including their spread into Third World countries, the probabilities of using them increases dramatically. Is the ultimate outcome of a Mutually Assured Destruction strategy, nuclear annihilation? Is there a just cause so precious in the free world that its defense, even by the extreme and risky means of recourse to nuclear weapons, is morally justified? Could a nuclear war be God's will? Can we achieve peace through negotiation? What can we as individuals do?
