## OFFICE OF THE PROVOST

Freshman Class Profile:

The Office of Undergraduate Admissions has completed its annual profile of the Class of 1992, which is appended to these Newsnotes. You will notice that the statistical information concerns 858 entering freshmen, which is not the same as the total headcount of freshmen (1311) reported in the Newsnotes of September 30, 1988. The profile appended here includes only first-time freshmen entering in September, 1988, while the enrollment chart headcount includes transfer freshmen and those who may have come to USD last spring and are still classified as freshmen.

Open Budget Hearing:

There will be an open meeting on the 1989-1990 budget at 3:00 p.m. on Friday, November 11, 1988, in Salomon Lecture Hall, DeSales Hall. Everyone is encouraged to attend.

Section 504:

USD recognizes that it is most important that all members of the community know the requirements contained in Section 504 of the Rehabilitation Act of 1973. Therefore, we are publishing the following information regarding academic and employment areas:

- no student may be excluded from any course or any course of study solely on the basis of handicap;
- modifications in degree or course requirements may be necessary to meet the requirements of some handicapped students (examples: extended time, less units per semester);
- prohibitive rules, such as those banning tape recorders from the classroom, must be waived for some handicapped students;
- auxiliary aids must be permitted in the classroom when they are required to ensure the full participation of handicapped students;
- alternate testing and evaluation methods for measuring student achievement will be necessary for students with impaired sensory, manual, or speaking skills (except where those are the skills being measured);
- classes may have to be rescheduled to permit access for students with mobility impairments;

- special equipment or devices used in the classroom (and in some cases teaching techniques that rely upon the sight, hearing, or mobility of students) may require adaptation in individual cases;
- it is discriminatory to counsel handicapped students toward more restrictive careers than nonhandicapped students, unless such counsel is based on strict licensing or certification requirements in a profession;
- auxiliary aids are made available by the institution for students with impaired sensory, manual, or speaking skills.
  
- there may be no discrimination on the basis of handicap in any employment decision or action, policy, procedure or practice;
- prior to posting or advertising any job, essential and non-essential functions of the job should be defined;
- alternate tests are available for applicants or employees with impaired sensory, manual, and speaking skills, and should be used whenever employee testing is affected by such impaired skills;
- there may be no pre-employment medical examinations required;
- there must be no discrimination based on handicap in recruitment, advertising, or processing forms for employment;
- tests and criteria that screen out handicapped persons must not be used;
- either: 1) pre-employment questions regarding the nature or severity of handicaps may not be asked - if not taking voluntary, remedial, or affirmative action; or 2) pre-employment questions regarding the nature or severity of handicaps may (or must) be asked because the institution is taking voluntary, remedial, or affirmative action;
- pre-employment questions regarding one's ability to perform essential functions of a job effectively and safely may be asked;
- reasonable accommodations will have to be made to the known physical and mental limitations of otherwise qualified handicapped persons;
- there may be no discrimination based on handicap regardless of the provisions in contractual agreements with unions, employment or referral agencies, providers of fringe benefits, providers of training or apprenticeship programs, and similar organizations;
- recreational and social opportunities for employees must be provided equally to handicapped employees;
- handicapped persons must have an equal opportunity to use parking and housing facilities provided to employees;
- there may be no discrimination based on handicap in any leave programs, including sick leave, vacation, leaves of absence, and so forth;

- there may be no discrimination based on handicap in opportunities for apprenticeships, internships, and staff or professional development, including travel to meetings and conferences; and
- handicapped applicants and employees must not be counseled toward more restrictive careers than nonhandicapped persons.
