OFFICE OF THE PROVOST

Enrollment for the 1990-1991 Academic Year:

Attached to these Newsnotes are the final enrollment charts for the regular academic year 1990-1991, with both Full-time Equivalent (FTE) and headcount enrollments included for all segments of the University.

An analysis of the charts will reveal to you a number of factors:

- Undergraduate enrollment is above budget for the year (by 125 FTE students). Net FTE attrition (minus graduating, disqualified, or dropout students, plus new students) was 6%, exactly the amount budgeted.
- The graduate student FTE dropped between fall and spring (a normal pattern), and the annual average is just slightly below budget (column 9: 562 FTE) by 6 FTE students.
- School of Law annual average enrollment is exactly on budget in day students and over budget by 6 evening students; on-campus LL.M./M.C.L. enrollment is less than 1 FTE below budget in full-time students, and 95 units below in part-time units.

Because we have nearly reached USD's Undergraduate headcount enrollment targets, we will continue to control the number of entering freshmen (which we have done quite successfully the past several years) and probably to reduce the number of new transfer students, in order that Undergraduate enrollment will remain fairly stable.

Phased Retirement Deadline:

Anyone interested in the Phased Retirement option beginning in 1992-1993 must apply by March 31, 1991. Please refer to your Faculty Handbook for the procedures.
