### USD RECEIVES NATIONAL SCIENCE FOUNDATION INSTITUTIONAL GRANTS FOR SCIENCE AWARDS

IMMEDIATE RELEASE - February 16, 1973

San Diego, California

Dr. Author E. Hughes, President of the University of San Diego, has received word from the National Science Foundation that USD has been awarded an additional \$5,990. The 1972 Institutional Grant for Science award brings USD's total to \$17,547.

Institutional grants awarded by NSF are designed to help maintain a strong academic base for science and to assist with the cost of science activities.

Upon receiving the grant, Dr. Hughes commented, "One of the areas of the University that has been recognized for its fine faculty and excellent programs is our science department. Probing into environmental problems is a challenging but expensive project for the scientist of today and most certainly of the future. Grants such as the one received from the National Science Foundation are greatly appreciated by the University of San Diego."
