ATTENTION, FAMILY CAREGIVERS...

The University of San Diego School of Nursing has received federal funding to further test interventions for families coping with memory and behavior deficits in Alzheimer's disease.

Families with a medically diagnosed member are potentially eligible to participate in this research. Selected participants will learn strategies and techniques to help stimulate memory, problem solving, and interaction skills. This project can be carried on in the home.

For more information, please contact the Project Director at 491-4515 or 260-4578.
